Dear Sir/Madam,

The first and third semester M.Tech. examination is scheduled to start on 11/12/2018 (as per the academic calendar of APJAKTU). Please collect at least three question papers from the faculty members under your chairmanship, as done in the previous semesters.

You may ensure that all the question paper setters under your chairmanship prepare the question papers on or before 28/11/2018.

The detailed instructions and a sample question paper kit are hereby attached. Question paper setters may adhere to the guidelines and instructions and ensure the confidentiality of the question papers.

Please instruct the faculty members concerned to adhere to the following points:

1. The faculty members teaching various PG courses under APJA KTU shall submit three sets of question papers. The question paper in the prescribed format shall be forwarded to the respective chairpersons on or before 28/11/2018. It is requested to treat this matter as urgent.
2. The faculty members are requested to keep at most care in ensuring the confidentiality of the question papers.
3. The header shall be exactly as in the sample kit attached. Both LaTeX and Microsoft word formats are given in the sample kit. However, one may use any word processing software to set the question paper. The final file format to be sent to the chairman is PDF format. Please ensure that **name of examination, course name, course code**, etc. are correctly entered in the header.
4. Question papers with mathematical content shall be entered using MS equation editor or preferably using LaTeX or appropriate software in order to keep the clarity of the equations.
5. The structure of the question paper is given in the sample kit.
6. Question papers SHALL NOT be marked as "Model Question" etc, and should not be given to students as model question paper.

The sub committees have to meet on 16/12/2019 at RIT, Kottayam at 10 am to discuss the matter and to submit the decisions to the cluster convener. The details of sub-committees formed is attached herewith. Please convey this information to the respective faculty members so as to meet at RIT on 16/12/2019.

Dear Sir/Madam,

As you know, the second semester M.Tech. examinations are scheduled to start on 27/05/2019. By the directions of the Cluster Convenor, I request you to send the question papers and their scheme (answer key) for the M.Tech. course being handled by you on or before 08 May 2019 (Wednesday).

The detailed instructions and a sample question paper kit are attached. Please adhere to the following guidelines and instructions and ensure the confidentiality of the question papers. Both LaTeX and Microsoft word formats are given in the sample kit. However, one may use any word processing software to set the question paper. The final file format to be sent to the chairman is PDF format. Please ensure that name of examination, course name, course code, etc. are correctly entered in the header. Please add exam slot code (shown in the syllabus) on the right top corner of the first page of the question paper.
2. Question papers with mathematical content shall be entered using MS equation editor or preferably using LaTeX or appropriate software in order to keep the clarity of the equations.
3. The structure of the question paper is given in the sample kit. Kindly note that month and year should not be indicated on the question paper.
4. Question papers SHALL NOT be marked as "Model Question" etc. and should not be given to students as model question paper.
5. Question papers for analytical courses shall have at least 50% numerical/analytical questions. For other courses, include reasonable proportion of numerical/analytical questions in Part-A and Part-B. In Part-B,

numerical/analytical question should not be *bypassed* by theoretical questions. That is, if the pattern is Q.9 OR Q.10, and assume Q.9 is an numerical/analytical question, then Q.10, must be an numerical/analytical question

6. Change the highlighted portions in the DOCx format to the appropriate content.

7. Once the question is done, export it to PDF format and check whether all symbols, equations, figures etc. have been reproduced correctly.

8. Please send me the pdf of question papers and answer keys (separate pdf file), with file names set as follows:
