## Report on Seminar on "Trust Yourself"

A one-day seminar on "Trust Yourself" was conducted in Seminar hall on 09/12/2018 from 10am-11am at Mechanical Seminar Hall. The workshop commenced with a prayer. This was followed by the welcome address of Mrs. Susan V Ninan. (H.O.D, EEE Department). Thereafter, she introduced the resource person to the participants with a brief introduction about his academic and research contributions and invited the resource person DrK Ravikumar, Assistant Professor, Computer Science Department, Builders Engineering College, Tirupur. for delivering the talk on the area. The resource person Objective of the seminar is to create confidence in students about how to trust yourself and be confident in who you are, what you believe so you can use your voice and stop being small in your life. Trust yourself, be confident with yourself, your decisions and your ability to figure things out.. The session was followed by an interaction with the participants. A feedback was also arranged to get the response of the participants about the presentation. A total of 25 participants attended the session. Ms. RahumathBeeby. (Assoc. Prof., EEE Department) proposed the vote of thanks to all the participants and the resource person. The meeting concluded with a National Anthem.

### REPORT ON BLUE PRINT FOR SUCESS

A seminar on "Blue print for success" was conducted on "27/03/2019" at Mechanical seminar hall. This Course seminar helped to give actionable strategies, and the smartest techniques out there that you can apply and you can use as an advantage to destroy competition.. This seminar will teach you exactly what you need to know accomplish success in any of your personal life, career and or business. It will share time-tested insights, strategies and techniques that are guaranteed to produce successful results in any area of your life; if properly and consistently applied. Not only will you learn how to leverage off the "mind - ability" dynamic, the seminar will also share with you how to identify the 3 main success killers, create powerful and achievable goals, turn vision into action, share how to get and stay motivated and above all provide you with the blueprint for achieving lasting success.

## Introduction

One day international Seminar on “Strategies for a Successful Career in Science, Engineering and Technology” was held at Mangalam College of Engineering, Ettumanoor ,Kottayam, on 4<sup>th</sup> February 2019.This programme was organized by the Department of Electrical and Electronics Engineering and Department of Electronics and Communication Engineering of Mangalam College of Engineering (MLMCE) ,Ettumanoor.

## Topics Covered:

- Mastering state of mind for self-empowerment and successful STEM career
- Emerging technologies and employment/entrepreneurship opportunities in Photonics, ICT, Smart cities, and Renewable energies
- Introduction to IEEE and Photonics Society

The Seminar was attended by the 141 participants which include students and faculty members of various engineering colleges affiliated to APJKTU

## Participating Institutes:

SI No	Name of the Institute	Number of participants
1	Amal Jyothi College of Engineering,Kanjirapilly	2
2	Sree Budha College of Engineering,	1

The esteemed personalities present in the inaugural ceremony are:

1. Dr Naresh Chand, Associate Vice President, Chapter Relations, IEEE Photonics Society
2. Shri Biju Varghese, Chairman, MLMCE, Ettumanoor
3. Dr. J. M Mathana, Principal, MLMCE, Ettumanoor
4. Dr.Abraham Chettissery, Legal Advisor, MLMCE, Ettumanoor
5. Dr. T D Subash, HoD, ECE Department, MLMCE, Ettumanoor
6. Ms. Susan V Ninan , HoD, EEE Department, MLMCE, Ettumanoor.

Sessions starts with the prayer followed by a welcome address , Mr. Anal E S , Chair-IEEE student branch welcomed all the dignitaries and participants. Dr. T. D Subash, HoD ECE gave an overview of seminar .Dr.J M Mathana , Principal MLMCE delivered an ingaugral address followed by lamp lighting ceremony. Dr. Naresh Chand inaugurated the session by lighting the lamp. Shri. Biju Varghese presided over the function and appreciated the programme organized by the Department in his speech. Dr.Abraham Chettissery, Legal advisor encouraged such activities conducted by the Department. Ms.Susan V Ninan ,HoD EEE, gave an brief introduction about chief guest. Session ended with honoring the distinguished guests with presentation of memento. Shri Biju Varghes handed over memento followed by vote of thanks by Mr.Alsufiyan Nazim, Vice Chair-IEEE Student Branch .

Speaker for the Sessions was Dr. Naresh Chand. Since 2011, Dr. Naresh Chand is with US R&D Center of Huawei Technologies in NJ where he is working on developing low-cost advanced technologies for Ultra Broadband Optical Access Networks. Prior to this, he worked for BAE Systems (2003-11), Agere Systems and AT&T/Lucent Bell Laboratories (1986-2003), and Dept of Electronics, Government of India (1974-79). He did his M.Sc. (Tech) in 1974 from BITS, Pilani. On a British Commonwealth Scholarship, he did his M. Eng. (1980) and Ph.D. (1983) in EE from the University of Sheffield, UK. He also did 2 years post-doctoral research at the University of Illinois, Urbana, IL. As a UNDP expert on the TOKTEN project, he supported SAMEER, TIFR, CEERI, SSPL, and DOE in 1995-96. Recently, he was elected to the Board of Education in his town Warren, NJ where his emphasis will be enhancing the STEM education and school ratings. Dr. Naresh Chand is a Life Fellow of IEEE, Associate Vice President, Chapter Relations of the IEEE Photonics Society, and the Chair, Photonics Society, North Jersey Chapter. During 2011-12, he was the Chair, IEEE North Jersey Section. As a result of introducing his best practices, his Section was declared as the best large Section of IEEE in the world in 2013.

A handwritten signature in green ink, appearing to be 'Naresh Chand', written in a cursive style.

In the first section he gave an introduction to IEEE and Photonics Society. He discussed about various IEEE resources to build career and to access global market. He discussed about 10 regions that have IEEE.

In the second session he discussed about influence of state of mind for self-empowerment and successful STEM career. He also emphasized that Primary goal of life is to Pursuit Happiness. He listed out numerous career opportunities that a person could pursue and their courses . Motivated the participants to recognize and realize hidden strengths and inspire others to find theirs. The only mantra for excel in career is to compete against yourself, not others, for that is who is truly your best competition. He winded up the session by giving an example of tree, "Stand Tall and proud, Be content with natural beauty".

In the third session he discussed about Emerging Technologies and opportunities for employment/ entrepreneurship. He also emphasized about exciting times when Artificial intelligence together with ultra broadband wired and wireless access networks will change the world and lead to 4<sup>th</sup> Industrial revolution. He also insisted to read tutorials and articles in IEEE journals, magazines and newsletters technology trends and keep themselves up to date and to position oneself to build a successful and enjoyable career. The program was concluded by students feedback followed by National Anthem.

## PRE SEMINAR MEETING

As part of international seminar a Pre Seminar meeting was arranged by Dr. Naresh Chand at Indraprastha ,Kottayam (7:30 AM) on 3<sup>rd</sup> February 2019. Sessions was attended by Legal advisor Dr.Abraham Chettissery, spiritual Advisor Rev.Fr.M P George, HoD ECE Dr. T. D Subash, HoD EEE Ms.Susan V Ninan . The pre seminar meeting was convened in order to discuss about the concern and issues related to engineering. He Interacted with the photonics members and student representatives regarding their concerns in Engineering and suggested possible solutions. He also discussed about the advantage that they could get in career being the member of IEEE photonics Society.

9. "Career Counseling Workshop for Polytechnic Students"

On  
31<sup>st</sup> May, 2019

Organized BY  
Department Electronics and Communication Engineering

In association with  
IEEE Photonics Society Student Branch Mangalam College of Engineering Ettumanoor

Motivation:

Upon the survey conducted by many of our technical outreach program to the vocational higher secondary schools, it is found that many students shows much interest to know more about the topic "Career options after 12<sup>th</sup>"

About the Programme:

Department of ECE along with IEEE Photonics Society Student Chapter Mangalam College of Engineering organized a one day workshop for the polytechnic students. Experts from different engineering fields lead the different sessions.

Session 1: Motivational Talk: Adv. Dr. Abraham Chettissery

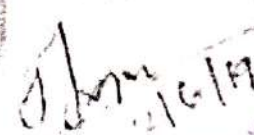

Session 2: Engineering Career Options after Diploma: Dr. T D Subash

Session 3: Higher Studies After 12<sup>th</sup> : Dr. Vinodh P Vijayan

Session 4: Goal Settings: Prof. Ajith Joseph

Workshop ended with certificate distribution.

## 10. Awareness Programme on the Importance of Internship

On

19<sup>th</sup> June , 2019

### Motivation:

Internship in Engineering studies stands supreme importance as it gives a real time picture of theoretical knowledge gained from the text books and class room studies. It is important to gain this practical knowledge in early career itself because from the intership we learn the preliminary concepts of design and planning in Engineering field. Also it serves as an eye opener to the students and academicians to think about the different real time problems facing industries.

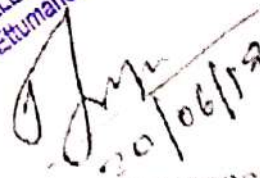

### About the Program:

ECE Photonics Society Student Branch Mangalam college of Engineering organized a one day seminar on the topic "Importance of Internship"

The main session was lead by Dr. T D Subash, Professor, Department of ECE .The major points discussed are the importance of internship in engineering Education, Its Benefits and major companies in private and public sector field ,offering internship.

## REPORT

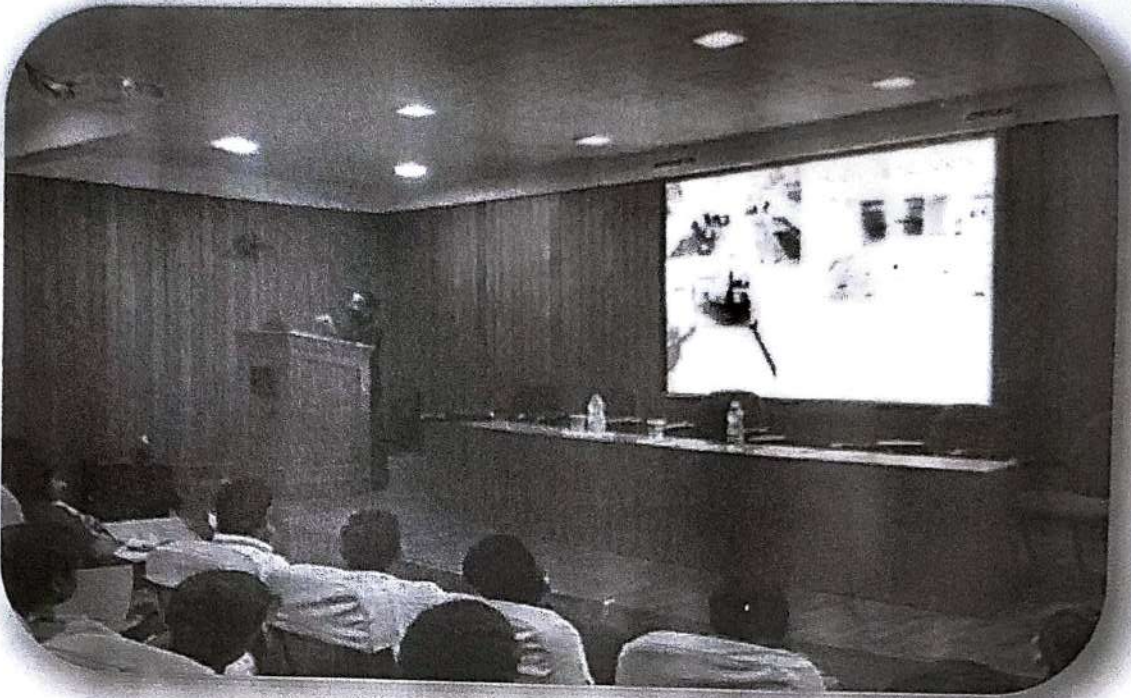

### STRUCTURAL SYNTHESIS OF SHIPS CIVIL ENGINEERING

Department of civil engineering conducted a seminar on Structural Synthesis of Ships Civil Engineering on 19/08/2018 at digital theater. The Event was started with a silent prayer. The Resource person for this programme was Dr. Sunil Kumar P G Deam Research, SNGCE kadayiruppu. An experienced, proven & competent professional with 29 years of experience and PhD in Naval Architecture, with comprehensive knowledge in design and repairs of ships, management of new construction project, teaching and research in a highly acclaimed university, research in a premier research laboratory, production and project management

Dr. Sunil Kumar P G presented the principal steps in the definition of a practical design model for multi-criteria synthesis of complex thin-walled ship structures in concept and preliminary design. It elaborates the general requirements on the design procedure, balanced and applicable combinations of design models and a practical example. He also explained about ship structures. Ship structure is a box girder composed of stiffened plates such as deck plating, side shell plating, and bottom plating. Ship-like floating structure also has the same structure as ship structure. The deck plating is stiffened by longitudinal stiffeners, girders, deck beams, and frames, and can be regarded as an orthogonally stiffened panel.

### INTRODUCTION TO RIVET ARCHITECTURE

Department of civil engineering conducted a workshop on Introduction to Rivet Architecture. The Event was started with a silent prayer. The Resource person for this programme was Mr. Jacob George Inner Cadd Center. The Aim of this work shop was to enrich the 3 D modeling capabilities of Students which will help them to get good job opportunities in # D drawing and modeling industries. No of students participated for this event was 121.

The resource person explained the importance of RIVET software and How to use the software properly. Revit Architecture is a program specifically designed for architecture that uses the BIM ( Building Information Modeling) system to generate and manage data about the designs, providing the user with total freedom when it comes to modeling buildings. Design all types of buildings and constructions by means of concept design tools.

The session was informative and useful for students . The programme was ended with vote of thanks from Ms. Sipli Abraham, Associate Professor Mangalam college of engineering.

### WEBINAR ON RESEARCH METHODOLOGY

Department of civil engineering conducted an offline Seminar on Webinar on Research Methodology for researchers on 04-04-2019. The Event was started with a silent prayer. The Resource person for this programme was Dr. M Vijayasarathy, Professor, MIET Engineering College Trichy.

Research takes place with the purpose of acquiring knowledge to contribute to further investigation or process to inform action, to prove a theory, or to reach a result. To produce fruitful experience, the Research must be of high quality. Dr. M Vijayasarathy explained the types of Research Methodology which support to get the best-suited outcome. The following points are discussed in session:

- Research is a way to build knowledge.
- It is an essential requirement to start analyzing, writing, reading, and distributing information.
- It nourishes and opens up the minds.
- With Research, different understanding issues seem easy.
- Research helps to build confidence and positivity to try on opportunities.

The importance of Research in engineering field can't be ignored. Lazy students and disinterested academics do not realize the need for doing research, but it is an imperative procedure to ensure the safety or positive result of their work. The research covers not only the education field, but it covers both professionals and non-professionals. Even for non-professionals, it is meant to acquire knowledge which helps them to sharpen their skills to survive around intelligence and improve their confidence.

The session was interactive and interesting. The programme was ended with vote of thanks from Ms. Sharon Treassa Biju, Assistant professor, Mangalam college of Engineering

### STRUCTURAL DRAWINGS USING AUTO CADD

**Event Date:** 22/03/2019

Department of civil engineering conducted a workshop on *Structural Drawings using AUTO CADD*. The Event was started with a silent prayer. The Resource person for this programme Ms. Anitha C S Inner Cadd Center. The Aim of this work shop was to improve the *AUTO CADD* drawing skills capabilities of Students which will help them to get good job opportunities in industry.

AutoCAD is computer-aided design (CAD) software that is used for precise 2D and 3D drafting, design and modeling with solids, surfaces, mesh objects, documentation features and more. It includes features to automate tasks and increase productivity such as comparing drawings, counting, adding objects and creating tables. The Resource person explained about all tools used in CADD Software and she explained about the way to professionally approach design and drawing

## MIX DESIGN OF CONCRETE

**Event Date:** 16/04/2019

**Venue :** N 203 and MT LAB

Department of civil engineering conducted a workshop on Mix design of concrete. Resource person for this programme was Mr. Shelly Francis from Q Crete Kottayam. Concrete mix design is the method of finding the precise proportion of cement, sand and aggregates for concrete to achieve the target strength in structures, therefore concrete mix design can be stated as concrete mix = cement: sand: aggregates. Accurate concrete mix design makes concrete construction more economical. The programme is started with mix design procedure class by Mr. Shelly Francis described the procedure for mix design by using IS codes in the morning session. The afternoon session was a lab session which is very helpful for the students to know the practical aspects of mix design

### SUSTAINABLE ASPECTS IN CIVIL ENGINEERING

**Event Date: 16/05/2019**

**Venue : Digital Theater**

Department of civil engineering conducted a seminar on sustainable aspects in civil engineering .Resource person for this programme was Dr. Subha V Professor School of Engineering Dr. Subha Vishnudas, Professor in Civil Engineering, Cochin University of Science and Technology, Cochin, Kerala, She has more than 70 publications in international journals and international conferences.. She is a member in several professional bodies in India and abroad. About 10 PhD research scholars are working under her guidance in the field of Sustainable development. She is also governing body member of National coir research management Institute, Trivandrum, Kerala. Her area of interest include sustainable building materials, sustainable water management, sustainable waste management, Housing and green buildings. She Explained that Sustainability is desire to perform activities without any depletion of resources or bringing any harmful effect on the environment. Practicing sustainable construction methods will help avoiding harmful effects from construction activities. Construction involves activities like use of building materials from various sources, use of machineries, demolition of existing structures, use of green fields, cutting down of tress etc. which can impact environment in one or more ways. Civil engineering field being the major part of the economy, it is very essential that sustainable construction practice dominate the past followed conventional construction practice and methods.

## ABOUT COMPUTER SCIENCE AND ENGINEERING DEPARTMENT

The Department of Computer Science and Engineering at Mangalam College of Engineering, was formed in 2002. The Department provides an outstanding research environment complemented by superior teaching for its students to flourish in. Graduates from the department are heavily recruited by both academia and industry. All over the world, ex-students of the Department occupy top positions in both academia and industry.

## OUTCOME OF THE PROGRAM

The workshop helped the participants to understand how to draft a scientific paper, become familiar to construct an argument in a scientific manuscript, do effective literature search and review, manage references using different software, understand authorship, plagiarism and ethics in publication. In addition, the workshop introduced the participants about the understanding of the submission process and peer review, selection of a journal and responding to reviewers comments. It turned out to be a very successful and exciting session with numerous good feedbacks about the same. Before marking the end, there was a question answer session which involved active participation from both students and faculty.

### OUTCOME OF THE PROGRAM

This workshop introduced the participants with fundamental of innovation and entrepreneurial management so that they can understand the requirements and challenges in this area. This also inspired many undergrads to think out of the box to bring a change that would engender many changes in the society. Thus, it turned out to be a very successful and exciting session with numerous good feedbacks about the same. Before marking the end, there was a question answer session which involved active participation from both students and faculty.

## One day Workshop on "Intellectual Property Rights & Innovations"

(Will be conducted in your College  
/Institution at your convenient date)

The one day workshop on "Intellectual property rights & Innovations" covers different aspects of Intellectual Property Rights (IPRs) such as Patents, Industrial Design, Copyrights, Trademarks, etc. It also covers Hands-on-Training on patent searches for Innovations. This will help to convert the project works into Patents and other forms of IPRs. This workshop definitely brings a positive transformation in the Students and Faculty members attitude in their UG/PG Projects and research works and also get them more focused in their work as well as result oriented.

**OUTCOME OF THE PROGRAM**

It was followed by the Session of Dr. Vinodh P Vijayan . In his session, he discussed about the following topics.

The various subject matters like the legislative framework of IP administration, the scope of patentability under the Patents Act and the different stages of filing for the grant of the patent were discussed during the meeting. A quick view to the website [www.ipindia.nic.in](http://www.ipindia.nic.in) were taken to get familiarized with the online registration. Various forms needed for the filling of the proposal was also peeped in through.

This event helped many to learn expert advice on filing and categorizing patents and the best way to register it, which in turn gave a great aid to both faculty members and students who wished to produce their ideas more exclusively. This also inspired many undergrads to think out of the box to bring a change that would engender many changes in the society. Thus, it turned out to be a very successful and exciting session with numerous good feedbacks about the same. Before marking the end, there was a question answer session which involved active participation from both students and faculty.

The Department of Computer Science and Engineering, MLMCE organized a one day workshop on "The Art of Research paper writing which was conducted on 4th May, 2021. This session was arranged via google meet platform.

The participants registered for the workshop were and the active participants who had attended the session were around .The spokesperson for the occasion was Mrs.Dhanya Sudarsan, at present pursuing Phd from Department of Electronics, School of engineering, CUSAT. Besides she also holds the post of Assistant Professor, Dept of CSE, Muthoot institute of science and technology.

In this context, the speaker emphasized the importance of Research paper writing in engineering. She explained the mode and various steps in write up of a research paper . Apart she also focused on the configuration of Research paper writing and elaborated more about its contents by instigating with examples to enable the listeners to grasp the subject.

The category of audience in this session were UG final year students, Pg students and Staff members. This workshop was greatly influenced by them and good feedback was received from all the participants. At the end of session, questionnaire was held and the speaker consented to answer the questions explicitly in a simple and understandable manner. Lastly the session ended with a vote of thanks by Adheena Babu from S6 CSE.

## Report on IPR

It was followed by the Session of Dr.E Gopinathan . In his session, he discussed about the following topics. .

Intellectual property (IP) refers to creations of the mind, such as inventions; literary and artistic works; designs; and symbols, names and images used in commerce.

IP is protected in law by, for example, patents, copyright and trademarks, which enable people to earn recognition or financial benefit from what they invent or create. By striking the right balance between the interests of innovators and the wider public interest, the IP system aims to foster an environment in which creativity and innovation can flourish.

Intellectual Property Rights (IPRs) are legal rights that protect creations and/or inventions resulting from intellectual activity in the industrial, scientific, literary or artistic fields. The most common IPRs include patents, copyrights, marks and trade secrets.

Many issues arise when a study group decides that it is technically prudent to incorporate an entity's intellectual property in the text of an ITU-T Recommendation; the issues vary according to the nature of the intellectual property.

When the intellectual property that is included is protected by an approved or pending patent, the study group must comply with the Common Patent Policy for ITU-T/ITU-R/ISO/IEC and the related "Guidelines for Implementation of the Common Patent Policy for ITU-T/ITU-R/ISO/IEC".

What are the 4 types of intellectual property rights

Patents, trademarks, copyrights, and trade secrets are valuable assets of the company and understanding how they work and how they are created is critical to knowing how to protect them

Intellectual property rights are customarily divided into two main areas:

(i) Copyright and rights related to copyright

The rights of authors of literary and artistic works (such as books and other writings, musical compositions, paintings, sculpture, computer programs and films) are protected by copyright, for a minimum period of 50 years after the death of the author.

Also protected through copyright and related (sometimes referred to as "neighbouring") rights are the rights of performers (e.g. actors, singers and musicians), producers of phonograms (sound recordings) and broadcasting organizations. The main social purpose of protection of copyright and related rights is to encourage and reward creative work.

(ii) Industrial property

Industrial property can usefully be divided into two main areas:

- One area can be characterized as the protection of distinctive signs, in particular trademarks (which distinguish the goods or services of one undertaking from those of other undertakings) and geographical indications
- The protection of such distinctive signs aims to stimulate and ensure fair competition and to protect consumers, by enabling them to make informed choices between various goods and services. The protection may last indefinitely, provided the sign in question continues to be distinctive.
- Other types of industrial property are protected primarily to stimulate innovation, design and the creation of technology. In this category fall inventions (protected by patents), industrial designs and trade secrets.
- The social purpose is to provide protection for the results of investment in the development of new technology, thus giving the incentive and means to finance research and development activities.
- A functioning intellectual property regime should also facilitate the transfer of technology in the form of foreign direct investment, joint ventures and licensing.
- The protection is usually given for a finite term (typically 20 years in the case of patents).

While the basic social objectives of intellectual property protection are as outlined above, it should also be noted that the exclusive rights given are generally subject to a number of limitations and exceptions, aimed at fine-tuning the balance that has to be found between the legitimate interests of right holders and of users.
