Student Solar Ambassador Workshop

Today, the world is at the crossroads of a contradictory energy scenario wherein, on the one hand, energy access has to be provided to billions while, on the other hand, increasing demand and usage of energy is causing catastrophic climate change. Mahatma Gandhi believed that "Nature can satisfy each one's need but not greed." In the current scenario, the natural resources have been over-exploited while the benefits reaped from these resources do not accrue to everyone.

Sustainable Development Goal (SDG) 7 calls for ensuring the access to affordable, reliable, sustainable and modern energy for all. However, still, more than 1 billion people lack access to electricity while an estimated 2.8 million people lack access to clean cooking fuels. While atmospheric CO₂ concentration has increased substantially due to the increased use of fossil fuels owing to energy demand pressures, which has made the world already hotter by nearly 1°C.

The 2018 Intergovernmental Panel on Climate Change (IPCC) report finds that "limiting global warming to 1.5°C would require "rapid and far-reaching" transitions in energy and there is need to adopt 100% Renewable Energy as early as 2050 in the purview of the climate. Today, renewable energy technology-based solutions, particularly solar, due to advancement in technologies and reduction in cost combined with super efficient loads enables economic viability of solar electricity. This can be utilized to meet local energy needs through local generation alone.

According to Mahatma Gandhi, the "Not mass production but production by masses is required". In the context of energy, lack of energy access and climate change, the need of the hour is the production of energy by masses.

It is clear that only science and technology development will not be sufficient for sustainable existence on Earth. It is high time that we pay gratitude and adopt Gandhian ideologies while celebrating 150th Birth Anniversary Year of Mahatma Gandhi. The Gandhi Global Solar Yatra (GGSY) is planned to promote self-sufficiency in energy for sustainability, mainly for those who lack access, as it is possible today to provide complete, cost-effective, reliable and sustainable energy.

solar energy sources while protecting the environment, creating livelihoods and empowering people. With the vision to promote localized energy self-sufficiency by creating awareness and sensitizing towards the viability Student Solar Ambassador Workshop was held on 2nd October 2019 at Mangalam College of Engineering, Kottayam, Kerala, India in association with IEEE Photonics Society Student Chapter to celebrate the Gandhian principles of self-sufficiency. This day will also be celebrated as the International Day of Non-Violence towards Environment. More than 100 participants from various institutions participated in this workshop. The objective of the workshop was to sensitize the young minds need to be aware of the urgency to act for mitigating climate change and their role to become the ambassadors of renewable energy, particularly solar, given its potential to power human lives.

Prof. Rabunath Beeky, HOD/EEE welcomed the gathering. Dr T.D Subash, Chair, IEEE Photonics Society Madras Chapter introduced the Chief Guest of the day Dr.Naresh Chand, Associate Vice President, IEEE Photonics Society. Dr.Naresh delivered the inaugural address via video conferencing from IEEE Photonics Conference, San Antonio, USA. During his address he highlighted the importance of solar energy. Also he stressed the demand of Photonics Engineering globally. Shri. Biju Varghese, Chairman, Mangalam group of Institutions delivered the presidential address. During his address he emphasis the role of IEEE in professional career. Dr. Abraham Chettissery, Advisor, Mangalam group of institutions officially inaugurated the program with his valuable presence. Mr. Jeneesh Scaria delivered the vote of thanks.

Participants:

"Trainers delivered the contents with great enthusiasm. We have thoroughly enjoyed it, Special thanks to IEEE Photonics Society".

By Mr. Anal E S, Final year B.Tech Student, Department of Electrical & Electronics Engineering, Mangalam College of Engineering, Kottayam, Kerala, India

"An amazing firsthand experience in solar lamp designing. Thank you for a wonderful experience".

By Ms. Joann Rose Jimmy, 9th Standard, School Student, Lourdes Public School, Kottayam, Kerala, India.

"It was even better than I imagined. I can't wait to teach my own students everything I learned in just a few short hours. Thanks! for the organizers, Thanks to IEEE".

By Arun P R, Assistant Professor, Department of Electrical & Electronics Engineering, MET Engineering College, Nagercoil, Tamilnadu, India

"Excellent workshop and great fun"

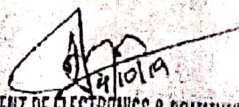

By Ms. AISHWARYA RAI.P, Second year B.Tech Student, Department of Electronics & Communication Engineering, Chennai Institute of Technology, Chennai, Tamilnadu, India

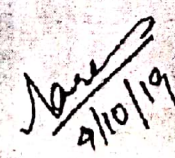

Trainers:

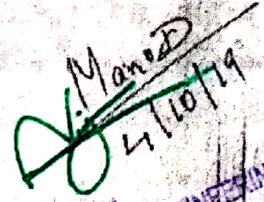

"It was a valuable, creative and exciting experience. The workshop had created big impact about solar energy among the students. Wonderful opportunity for the students".

By Ms. Eugene Peter, Assistant Professor, Department of Electrical & Electronics Engineering, Mangalam College of Engineering, Kottayam, Kerala, India.

"A fantastic day has been had and the students have learn so much about Solar energy. Best workshop ever!"

4. Two Day Workshop on Production of LED Lights, Tubes & Street lights - Approach for Rural Industrialization and Women Entrepreneurship Development

31st January – 1st February 2020

Fighting back all the gender issues, the IEEE Photonics Society Student Chapter of Mangalam College of Engineering decided to equip the women of Thaneermukkom village, Allapuzha District of Kerala, India to prove themselves the sheer confidence that they have within. Unleashing the strength within them, the Kudumbashree Women of Thaneermukkom village will start climbing the electric posts very soon. The initiative not only brings about the women to the forefront but also proved that no task is impossible for women and in short, gender is not a barrier.

The light emitting diode (LED) is one of today's most energy efficient and rapidly developing lighting technologies. An LED lamp is an electric light or light bulb for use in light fixtures that produces light using light emitting diodes (LEDs). LED lamps have a lifespan and electrical efficiency which are several times greater than incandescent lamps, and are significantly more efficient than most fluorescent lamps, with some chips able to emit more than 300 lumens per watt. Quality LED light bulbs last longer, are more durable, and offer comparable or better light quality than other types of lighting. LED is a highly energy efficient lighting technology, and has the potential to fundamentally change the future of lighting. Widespread use of LED lighting has the greatest potential impact on energy savings also

Not only on LED making and repairing, we are also about to provide training in business management, communication leadership, accounting etc as well. The training are making LED, tube, emergency, panel light etc. Both the theory and practical training for making LED bulbs and repairing the street lights will be provided. Those who finished the LED bulb training may

enable the women to make LED Bulbs and repair the street lights in their own localities, leaving behind all the gender discriminations. The programme envisions in equipping the women to take up jobs that were considered suitable only for men. LED Bulb making and street light repairing can be done by anyone who are properly trained. The selected women are given training in making LED lights and repairing street lights. The women will be provided with proper training, both theory and practical sessions.

18/2/20

A two day workshop on *Entrepreneurship & project development* hosted by department of *Electronics and Telecommunication* in association with *IEEE Photonics Society Student Chapter* of *Mangalam College of Engineering Ettimanoor* on 14th and 15th February, 2020. The workshop consists four mentors/resource persons working in various schemes will address the student to tackle their problem in becoming an entrepreneur.

The Resource Persons were

- Dr. Jippu Jacob, Head IPR Cell of KSCSTE & Professor Mechanical Engineering, AmalJyoti College of Engineering.
- Prof. Abi Varghese, IFDC Convener, AmalJyoti College of Engineering.
- Prof. Sherin Sam Jose, HOD ME & Automobile, CEO Startups Valley TBI, AmalJyoti College of Engineering.

First day of the workshop consisted of student registration, inaugural ceremony and sessions covered by Dr. Jippu Jacob and Prof. Abi Varghese.

The student registration has started from 9:00 am. There are 50 student registrations which include 10 IEEE members.

The inaugural ceremony started at 10:00 am started with a prayer by coir team of a Mangalam College of Engineering. Welcome Address is delivered by Mr. Ananthamoon C.S. Student Coordinator at 10:05 am. Overview of the program is explained by Dr. T.D. Subash, Professor ELE department at 10:10 am. Presidential address is delivered by Dr. Abraham Chettissery, Legal Advisor, Mangalam Group of Institutions at 10:15 am. Principal address is delivered by Dr. Manoj George, Principal, Mangalam College of Engineering at 10:20 am. Lighting Lamp ceremony is held at 10:25 am by the honorable dignitaries on the dais. Inaugural address is delivered by Chief Guest Mr. Rajeev G, General Manager, Joint Director of Industries & Commerce, Department of Industries and Commerce, Government of Kerala. The Chief Guest is honoured with memento by Dr. Abraham Chettissery and the resource persons are honoured with memento by Dr. Manoj George and Dr. T.D. Subash. Vote of thanks is delivered by Mr. Albeen P. Rep. Student Coordinator. Mr. Rajeev G also had an interactive session with students about 10 minutes on the topic Entrepreneurship in current scenario. There was tea break for 10 minutes. The session 1 is started at 11:05 am by Dr. Jippu Jacob. He delivered an excellent talk about the topic *Innovation from Nature*. Although he had a patent in a coconut husking machine he is really able to show the students that how we can turn the nature's various designs into useful commercial products. The session was very interesting and interactive to the students. The Forenoon Session last for 1:45 pm. Then there was a lunch break. The afternoon session was started at 2:00 pm at mechanical seminar hall. Dr. Jippu Jacob Sir had completed his remaining topics and discussion within half an hour and hand it over to Prof. Abi Varghese at 2:30 pm. Session 2 is taken by Prof. Abi Varghese about the topic *Think Out of Box*. He noted down few examples from his life such as an arecanut husking machine made by him and latex carry bag.

MANGALAM COLLEGE OF ENGINEERING
Ettimanoor

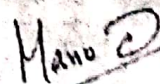

Second day starts with sessions of Prof. Sherin Sam Jose, HOD ME & Automobile, CEO Startups Valley TBI, Amalloy College of Engineering from 9:00 am at mechanical seminar hall. His first session was about *Project Development and its Importance*. He also pointed out some examples regarding his life and some of his students life. The first session was upto 10:45am. After first session there was a tea break from 10:45am to 11:00 am. The second session was also taken by Prof. Sherin Sam Jose on the topic *Entrepreneurship: Is it Possible for an Engineering Student*. This session started at 11:00 am. The second session was also interesting like the first one. The interactive sessions was very useful to the students. Prof. Sherin added some entrepreneurship supporting agencies and some examples of startups by engineering students and also by common people. The session lasts for 1:00 pm. Then there was a lunch break from 1:00 pm to 1:45 pm.

The 3rd session started from 1:45 pm which was on the topic *Project development When and How*. This session was also lead by Prof. Sherin Sam Jose. In this session the resource person talked about how a project can be developed and how it can be marketed. He also pointed out examples and for reference pointed out some funding agencies. The session ended at 4:00 pm. After the session feedback is taken from the students. All the students was glad to have this workshop. The resource person is honoured by Ms. Rahumath Beevi, HOD EEE Department, Mangalam College of Engineering by a memento. The certificates to the participants are distributed at the end of the program.

BRIEF REPORT OF EXPERT SESSION ON SEMINAR ON GST (GOODS & SERVICES TAX)

A Seminar On The Topic "Expert Session On GST (GOODS & SERVICES TAX)

" Amongst Students Was Organized By The Mangalam Management Studies With Guidance Of Respected Dean Dr. John T Varughese And CA Muhammed Galib Moidheen, Chartered Accountant. In The Beginning Of The Session, Welcome Note Was Conducted Ms. Demy Devassy Had Invited Dr. John Varughese For Explaining About The Content Of The Event And Relevant Will For The Students, Who Starting Their Next Phase Their Career.

After that we have invited the Expert Speaker of the day CA Muhammed Galib Moidheen, Chartered Accountant. He has firstly gone through his journey Services and how he has climbed the steps of his career advancements. He explained the importance of marketing in Entrepreneurship, it is going be most important aspect where students will understand how their Strengths can be converted to Opportunities and how they can successfully remove their weakness and threats for their progression.

He informed the students, should possess information on current business affairs. They should procure knowledge on different kind of industries and their survival stories especially during this pandemic scenario. During this phase there are lot of industries boomed and same time some have gone down.

After the session there where Q&A sessions, majority of the students have asked their concerns, especially how to get placed on MNC's, topics covered on GD and tips for cracking the interviews and at same time how to get registerd under TCS portal.

After the Q&A session, few students randomly has given feedback about the session and how it helped them to get rid of fear of placements.

For honoring the Guest Speaker, Ms. Giby Joe, has given Vote of Thanks and we concluded the session by showing our gratitude to the Guest who has taken an hour from his busy schedule.
