Workshop on Entrepreneurship

21st December 2021

Entrepreneurs are a pivotal part of any economy and are considered more of a national asset because of the immense contribution they make, be it bringing new employment opportunities or adding to the growth and development of a nation. They possess the potential to transform the way we live as well as work through their innovative ventures. As a field of study, Entrepreneurship has become a popular discipline in the world, and more students are becoming interested in understanding its nuances of it. One such specialisation concerned with this domain, Entrepreneurship Development is concerned with assisting budding entrepreneurs to boost their existing skills and abilities to become more proficient in handling their businesses. Through this blog, we will be exploring entrepreneurship development in detail, the courses offered, top universities as well as career prospects you can avail

OUTCOME OF THE PROGRAM

The workshop highlighted ways to become an entrepreneur with the skills one possesses and what basic skill set one must have to become good entrepreneurs in life. Based on the list of qualities shared by the speakers, the participants analysed for themselves what skills they already possessed. Using motivational videos on great entrepreneurs, the speakers explained how simple ideas were converted into business models.

Entrepreneurship development is the means of enhancing the knowledge and skill of entrepreneurs through several classroom coaching and programs, and training. The main point of the development process is to strengthen and increase the number of entrepreneurs.

This entrepreneur development process helps new firms or ventures get better in achieving their goals, improve business and the nation's economy. Another essential factor of this process is to improve the capacity to manage, develop, and build a business enterprise keeping in mind the risks related to it.

In simple words, the entrepreneurship development process is about supporting entrepreneurs to advance their skills with the help of training and coaching classes. It encourages them to make better judgments and take a sensible decision for all business activities

Process of Entrepreneurship Development

The below-mentioned steps will illustrate how to build an effective entrepreneurship development program for an entrepreneur to organize and launch the new ventures.

- **Discover** – Any new process begins with fresh ideas and objectives, wherein the entrepreneur recognizes and analyzes business possibilities. The analyzing of

opportunities is a risky task, and an entrepreneur looks out for inputs from other persons, including channel partners, employees, technical people, consumers, etc. to reach an ideal business opportunity.

- **Evaluation** – The evaluation of an opportunity can be done by asking several questions to oneself. For instance, questions like whether it is worth taking a chance and investing in the idea, will it attract the consumer, what are the competitive advantages and the risk linked with it are asked. A reasonable and sensible entrepreneur will also analyze his skills and whether it matches his entrepreneurial objectives or not.
- **Developing a plan** – After the identification of an opportunity, an entrepreneur has to build a complete business plan. It is the most important step for new business as it sets a standard and the assessment criteria and sees if a company is working towards the set goals.
- **Resources** – The next step in the process of entrepreneurial development is resourcing. Here, the entrepreneur recognizes the source of finance and from where the human resource can be managed. In this step, the entrepreneur also tries to find investors for his new business.
- **Managing the company** – After the hiring process and funds are raised now its time to start the operation to accomplish the desired goals. All the entrepreneur will decide on the management structure that will be assigned to resolve the operational problems whenever it occurs.
- **Harvesting** – The last step in this process is harvesting, where an entrepreneur determines the future growth and development of the business. Here, real-time development is compared with the projected growth, and then the business security or the extension is initiated accordingly.

DAY 5 (26.11.2021)

Day 5 started with the session organized by KTU , Ms.K K Shailaja teacher, Former minister of Health. This session is followed by a Technical talk on “Research in Computer Science & Engineering” handled by Dr.Sabu George(Assoc.Professor-CSE).

This session clearly explained about the scope of research in the field of Computer Science Engineering, current topics in research in the field of Computer Science. He also discussed about various project topics which helps the students more interesting in the field.

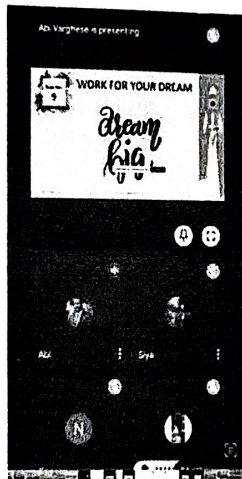

DAY 6 (27.11.2021)

Day 6 Started with the session related with the topic "ETHICS-Significance and challenges in student life" handled by Fr.Dr.Bennet Kuriakose (Assoc.Prof, SJ CET, Palai). He focused on certain keypoints as follows:-

- Be respectful.
- Respect the dignity of the student.
- Act to benefit the student.
- Facilitate student learning.
- Provide a safe environment.
- Maintain the highest level of professional behaviour.
- Do not cause harm.

The afternoon session was handled by Mr.Abi Varghese(AP-ME, AJCE, Kanjirapilly) on the topic related with “Ideation Workshop-Kick off”.This session was beautifully organized and an inspiring session to the students. The main goal of an ideation session is to spark innovation and draw out a sense of creativity.

Dr.Ranju S Kartha, HOD-CSE provided vote of thanks at the end of the session on 27th November, 2021 in presence of Staff Advisors, students and faculty members for making this program a grand success. A session with the students concluded the 6-day programme with a positive note.

LEARN PYTHON BY DEVELOPING A WEBSITE

PROGRAMME REPORT

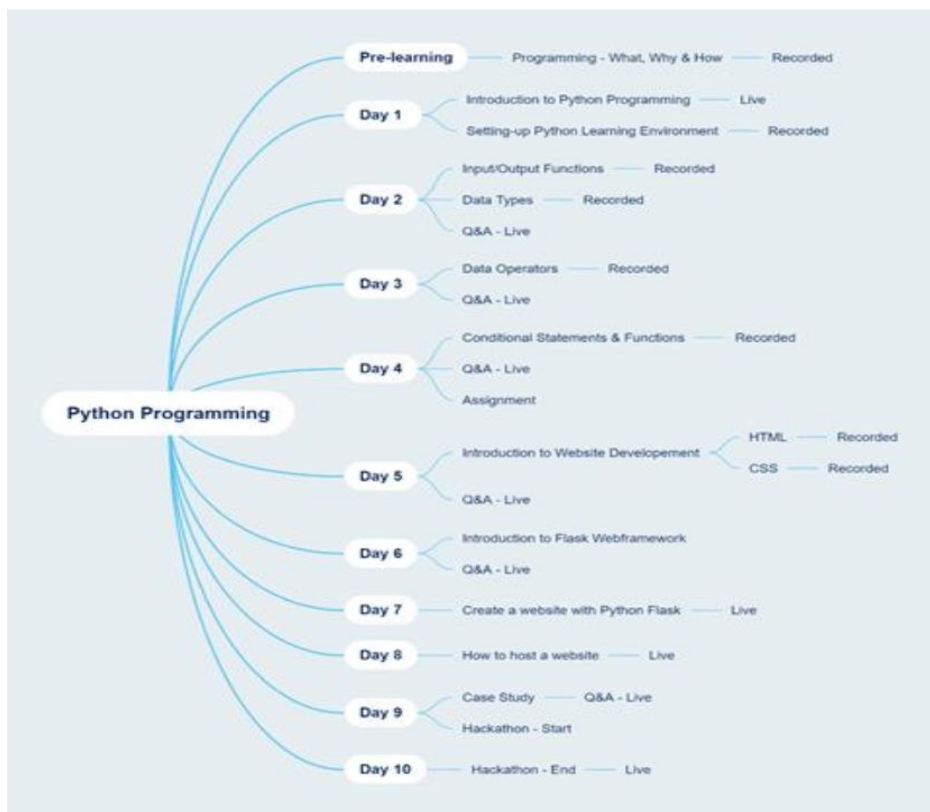

Learn Python by Developing a Website is an instructor led Virtual training program offered by ICT Academy of Kerala in association with Dept. of ECE , Mangalam college of Engineering for Engineering students. This program is specially designed for students who are new to the programming world and would like to build their career in Information technology.

Why Python?

1. Python become a basic essential programming language for the students to build their career in IT on IR 4.0 technology and have a high demand in IT industries.
 1. Easy to Learn – Beginners and Non – IT students
 2. Use in Big Data, Data Science, AI, ML, DL, and IoT.
 3. Large community of developers and rich set of Libraries & frameworks (Open source)
 4. Versatility – use for Mobile app, web app and hardware related programming
 5. Most demanded programming skill in corporates.

Key Features

1. Overview
 - Learn the basics of Python programming.
 - Use Python to build your own website and host it.
 - Drive into website development with Python flask.
2. Program flow
 - Data Visualization-what why and how.
 - Introduction to Python programming.
 - Setting-up Python Learning Environment.
 - Input/Output functions.
 - Data Types.
 - Data Operators.
 - Conditional statements and functions.
 - Introduction to website development-HTML & CS
 - Introduction to Flask web framework.
 - Create a website with Python flask.
 - How to host a website.
 - Case study.
3. Batch Size:
 - Minimum 45 – 50 students
4. Duration & content delivery
 - 10 Days (Live classes during Evening hours) –
 - Delivery: Blended Mode (Live and recorded sessions)
5. Program flow

Outcome of the Event

It was very interesting session by Mr. Nidhal Abdullah. The main idea of the topic was to attain knowledge about different types of drones and their applications. Students and faculties understood the importance of drones. Much valuable information about the evolution, history of drones, flight maneuvers, DGCA rules and regulations. Many of the doubts about the classification of drones, working operations and regarding flying zones were cleared during the session. The session was encouraged the students to do practical workshops related drone.

(57) Abstract :
 The present invention generally relates to a predictive controlling device for single-stage transformerless buck-boost microinverter comprises a modified MPPT controller configured to estimate maximum power point using a relation between the input and output voltage; a voltage controller configured to determine output peak current reference depending on the maximum power extracted from a PV module; a current estimator and current controller configured to track the current reference and to minimize a steady-state error using inductor energy conservation principle; and a power converter configured to adjust a proportion of real power to reactive power in order to change a quadrant of apparent power operation to a desired quadrant of apparent power operation.

(57) Abstract :
 The present invention is a Blockchain based Model which is developed by using the concepts of Blockchain and Cloud. With the help of present invention, inventor exasperated to suggest a robust and an integrated system which will positively support the Development of Educational systems. The present study consists of Blockchain technology for maintaining the student database competently and wisely. We are using the cloud infrastructure to save the database and with the help of cloud, the database can be accessed from anywhere. The system takes the inputs from the user and will give the desired results. A present invention is a powerful tool which use the student data base more efficiently and intelligently in the process of development of Educational Institutions.

(57) Abstract :

A method of optimizing 3D Integrated circuit (IC) design flow is disclosed. The process comprising the steps of: performing Enhanced Multi-Way Partitioning, which is the partitioning of the netlist mostly for the purpose of assisting with the upcoming placement procedure and utilizing the move count policy and dynamic move count penalization factor to conduct successful partitioning; performing power aware placement with high-power partitions picked first, whereas consideration is given to the placement of the selected high power rate divisions and the Electro Skew-Flower Pollination Algorithm approach is employed to determine the optimal cell site; and performing clock tree synthesis to utilize three sequential processes including abstract tree generation, embedding, and buffer insertion, and which is employed to generate an abstract tree based on the internal nodes, whereas EZS algorithm is employed to find the placements of the internal nodes and buffer insertion is performed using the capacitance and delay metrics.

BRIEF REPORT OF WEBINAR
HOW TO BECOME AN EMPLOYABLE PRODUCT
On 27th JANUARY 2022 at 11:00 AM
Google Meet: <https://meet.google.com/yok-cuts-yob>

A Webinar on the topic "How to Become an Employable Product" amongst Students was organized by the Mangalam Management Studies with guidance of Respected Dean Dr. John T Varughese and Resourceful Speaker of the day Mr. Jaxson Figarado, Talent Engagement Head, BFSI Business Group, Tata Consultancy Services, on 27th JANUARY 2022 at 11:00 AM through Google Meet.

In the beginning of the webinar, welcome note was conducted by Ms. Meera Premakumar and had invited Dr. John T Varughese for explaining about the content of the event and how relevant it will be for the students for the 2020-2022 batch, who is starting their next phase in their career.

After that we have invited the Expert Speaker of the day Mr. Jaxson Figarado, he has firstly gone through his journey in Tata Consultancy Services and how he has climbed the steps of his career advancements. He explained the importance of SWOT Analysis, as it is going to be most important aspect where students will understand how their Strengths can be converted to Opportunities and how they can successfully remove their weakness and threats for their progression.

He informed the students, should possess information on current business affairs. They should procure knowledge on different kind of industries and their survival stories especially during this pandemic scenario. During this phase there are lot of industries boomed and same time some have gone down.

Nowadays, the interviewer clearly assess the analytical skill through the written tests, their domain knowledge and at the same time on current trends.

He has given the students an insight on how to be well prepared for finding a suitable placement and job.

After the session there where Q&A sessions, majority of the students have asked their concerns, especially how to get placed on MNC's, topics covered on GD and tips for cracking the interviews and at same time how to get registerd under TCS portal.

After the Q&A session, few students randomly has given feedback about the session and how it helped them to get rid of fear of placements.

For honoring the Guest Speaker, Ms. Kristian Susan, has given Vote of Thanks and we concluded the session by showing our gratitude to the Guest who has taken an hour from his busy schedule.

A Webinar on the topic Data Center & Cloud Infrastructure amongst Students was organized by the Mangalam Management Studies with guidance of Respected Dean Dr. John T Varughese , respected Professor and HOD Dr. Sibu C Chithran and Resourceful Speakers of the day Mr. Thomas John ,Founder Connectnet Solutions and Mr. Prakash Bheemashetty Founder Navami Infotech, on 9th June 2021 at 11:00 AM through Google Meet.

In the beginning of the webinar, welcome note was conducted by Ms. Tinta Baby and had invited Dr. John T Varghese for inauguration speech and Dr. Sibu C Chithran about the content of the event and how relevant it will be for the students for the 2019-2021 batch and helping them to get a new vision on upcoming trends in competitive technology driven world.

After that we have invited the Expert Speakers of the day Mr. Thomas John and Mr. Prakash Bheemashetty, the best persons in town.

They have firstly given a brief description about importance of data, it is the most critical asset of any organization and businesses are faced with the imminent challenges of managing and governing data while ensuring data compliance. Data management is critical for every company to improve business agility with up-to-date information available anywhere, anytime to the employees who need it most. There are entire ecosystems that grow perennially around Big Data and Data Analytics, which make enterprises aim for significantly critical tools to manage everyday data.

With businesses realizing the dynamism of what can be done with their data, they are moving on from their existing resources to well-equipped Data Centers to aid better data management. Data Centers have become top priority for businesses across the globe to measure up their IT infrastructure requirements. With this shift in addressing information, Data Centers have moved beyond being just an additional storage facility. Infact, they have emerged as a key business parameter. Here is why Data Centers are necessary for enterprise businesses.

They have explained the main advantages of adopting a cloud-based data center:

- 1. Cost effective**
- 2. Data security**
- 3. Scale as per need**
- 4. Mobility**
- 5. Disaster recovery**

Innovative ways of data management and storage are being introduced by Data Centers that instigate more enterprises to branch out into the utilization of Cloud Computing. Data Centers as well as companies are focused on meeting data storage demands that integrate both cloud and physical storage capabilities.

Q&A session was held and students have participated and have cleared lots of doubts on pandemic is going to affect entire business world and how can we recover and conquer new milestones.

After the Q&A session, few students randomly have given feedback about the session.

BRIEF REPORT OF WEBINAR
CAMPUS TO CORPORATE: THE A-Z MANTRAS OF CAREER SUCCESS
On 7th JUNE 2021 at 3:00 PM-4:30 PM

A Webinar on the topic "Campus to Corporate: The A-Z Mantras of Career Success" amongst Students was organized by the Mangalam Management Studies with guidance of Respected Dean Dr. John T Varughese and webinar in-charge Dr. Siby James and Resourceful Speaker of the day Mr. Mark Antony Sequeira Principal Consultant & CEO Maestro Human Resources Pvt Ltd, on 7th June 2021 at 03:00 PM through Google Meet.

In the beginning of the webinar, welcome note was conducted by Dr. Siby James and had invited Dr. John T Varghese for inauguration speech and about the content of the event and how relevant it will be for the students for the 2019-2021 batch, who is starting their next phase in their career. After that Expert Speaker of the day Mr. Mark Antony Sequeira was invited for giving the importance of the above said subject.

He started the session, saying to students that everyone should be ready to face challenges, they should start journey from campus to corporate by completing campus recruitment training.

He has mentioned the main areas where the training is required.

1. Aptitude Training

Aptitude refers to the competency of a person to learn or acquire knowledge. Most of the jobs in the corporate world require employees to expand their skill set through additional training.

2. Mock Group Discussion

A mock group discussion helps you to prepare yourself to argue, discuss, agree or disagree on statements made about the topic given. It helps you to express your views on a topic in a formal setup. A candidate's thinking, listening and speaking skills are enhanced by participating in such mock discussions.

3. Technical Interview Practices

Technical interviews are common for employers recruiting for engineering, science, or software roles. Essentially it is an interview to assess your technical ability for the role, and the depth and breadth of your knowledge in your chosen field.

4. Mock Interviews

A practice interview with a career counselor that will help you prepare for an actual employment interview. The focus of the interview is to practice and articulate your skills/strengths and past experiences.

Q&A session was held and students have participated and have cleared lots of doubts how to crack the test, GDs and personal interviews.

The session was ended by vote of thanks by Dr. Siby James to Mr. Mark Antony Sequeira who took is valuable time to spend with our students and also feedback of students.

III. Invited as Resource Person

- Resource Person in **DST-NIMAT** sponsored online Women Entrepreneurship Development Program (WEDP-II) titled “**IPR, Patent Rights, Copyright, Trademark**” at SRM Institute of Science and Technology on 17th April, 2021.
- Resource Person in **DST-NIMAT** sponsored online Women Entrepreneurship Development Program (WEDP-II) titled “**Developing Entrepreneurial Competencies**” at SRM Institute of Science and Technology on 18th April, 2021.
- Resource Person in **Two Weeks AICTE Sponsored online FDP** titled “**Overview of sustainable Development Goals-Quality Education**” at Sairam Institute of Technology, Chennai on 05th April, 2021.
- Resource Person in AICTE – ISTE sponsored – Induction/Refresher Programme - Phase II titled “**Role of Assessment and Developing Rubrics in Teaching**” at **Malla Reddy Engineering College (Autonomous)**, Hyderabad on 26th March, 2021.
- Resource Person in AICTE – ISTE sponsored – Induction/Refresher Programme- Phase II titled “**Demonstration-Open Source Platform for IoT**” at **Motilal Nehru Government Polytechnic College**, Puducherry on 20th March, 2021.
- Resource Person in AICTE sponsored STTP series III “**Recent Advancement in IoT and Industry 4.0**” at **Mahendra Engineering College**, Namakkal on 15th February 2021.
- Resource Person in AICTE sponsored STTP Series III “**Internet of Things & its Applications**” at **New Horizon College of Engineering**, Bengaluru on 13th February 2021.
- Resource Person in AICTE Sponsored STTP titled “**Research Challenges in IoT – Hands on Training – Case Study**” at **GRG Polytechnic College**, Coimbatore on 12th February 2021.
- Resource Person in AICTE Sponsored STTP titled “**Emerging Trends in Micro/Nano Sensor and Actuators for Industrial Applications**” at **Sri Manakula Vinayagar Engineering College**, Pondicherry on 09th February 2021.

- Resource Person in AICTE Sponsored STTP- Phase II titled “**Recent Trends and Challenges in Data Science**” organized by **Hindusthan College of Arts and Science**, Coimbatore on 22nd Januray 2020.
- Resource Person in AICTE Sponsored 6 days virtual STTP on Assessment in Engineering Education- A Pedagogical Approach “ **Role of Assessment in Teaching and Learning**” organized by **Velammal Institute of Technology**, Chennai on 06th January 2020.
- Resource Person in AICTE Sponsored Two weeks online FDP on Data Science and its Applications on “**Implementation of IoT through open source tool in course with Data Science**” organized by **Sri Shakthi Institute of Engineering and Technology**, Coimbatore on 19th November 2020.
- Resource Person for Webinar on “**Integrating IoT through Smart Sensors**” organized by **GRG Polytechnic College** on 28th October 2020.

IV. Patents Published/Granted

- **Granted** International patent titled “**An Efficient Coverage Management for Smart IoT Application**” on 26.03.2021. Application Number- 2021101571.
- Published a patent titled “**A Wireless Automation system for monitoring and managing the power consumption by Embedded RFID and IoT**” published on 22.01.2021. Application Number- 202141001660.
- Published a patent titled on “**Enhancement of Quality of Service in Wireless Sensor Network by Redundant Sensors controlling**” published on 11.01.2020. Application Number-202041051968.

V. Workshop / Guest Lecture Organized

- Organized a STTP titled on “Artificial Intelligence and Machine Learning” on 15th February to 20th February 2021.
- Organized a Webinar titled on “Internet of Things & its Applications” on 08th February 2021.
- Organized a Webinar titled on “Robot Intelligent Technology & Applications” on 19th September 2020.
- Organized a Webinar titled on “Research Impacts and Challenges of Smart Wireless Sensors on IoT Applications” on 22nd October 2020.

VI. Conference Proceedings

- Attended an International Conference titled on “Treatment of Sleep Apnea Using CPAP” at Karunya Institute of Technology and Sciences on 23rd April 2021.
- Attended an International Conference titled on “Automatic Eye Cataract Diagnosis and Classification Using DNN” at Karunya Institute of Technology and Sciences on 23rd April 2021.
- Attended a Scopus Indexed Conference titled on “Envisioning Insights Driven Liver cancer Diagnosis Using HDCNN Algorithm” at PSNA College of Engineering and Technology on 31st March 2021.

- Presented a paper titled on “A Novel Methodology on Fracture Detection in Bone Images” in TEQIP-III Sponsored National Conference at Pondicherry Engineering College on 09th January 2020.
- Presented a paper titled on “Energy Efficiency Routing Protocol Based on Enhanced K Means Algorithm for Underwater Wireless Sensor Networks” in CSIR Sponsored National Conference at Vellalar College of Engineering and Technology on 20th September 2019.
- Presented a paper titled on “Automatic Fracture Detection in Bone Images” in National Conference at Bannari Amman Institute of Technology on 19th September 2019.
- Presented a paper titled on “Cardiac image enhancement and segmentation through CNN” in National level Conference at PSNA College of Engineering and Technology on 15th March 2019.
- Presented a paper titled on “Image Characterization on Bone X-Ray Images using Fractional Brownian motion” in National level Conference at PSNA College of Engineering and Technology on 2nd March 2018.
- Presented a paper titled on “Skeletonization Using Morphological Operations” in National Conference at Anna University Regional Centre on 21st February 2015.
- Presented a paper titled on “Bone Thickness Computation at Low resolution In-vivo CT images and Classification through ANN” in National level Conference at Bannari Amman Institute of Technology on 19th February 2015.
- Presented a paper titled on “A Survey on Detecting Bone Diseases Using bone thickness Computation” in International Conference at Coimbatore Institute of Technology on 15th February 2015.
- Presented a paper titled on “A Survey on Enhancement Techniques for Underwater Images” in National level Conference at Kongu Engineering College on 06th February 2015.
- Presented a paper titled on “A Combined Algorithm for Bone Thickness Computation at Low Resolution of CT Images” in International Conference at Karpagam College of Engineering on 09th January 2015.

VII. Program Committee Member

- ❖ Served as an **Evaluator** at “Toycathon 2021” organized by Ministry of Education's Innovation Cell, Association with AICTE, Delhi, held on 25/01/2021.
- ❖ Served as a **Reviewer Committee member** at “International Conference on Computing, Communication, and Intelligent Systems”, Organized by Sharda University, Noida, held from 19/02/2021 to 20/02/2021.
- ❖ Served as a **Reviewer Committee member** at “IEEE International Conference on Advances in Computing, Communication Control, and Networking”, Organized by Galgotias College of Engineering and Technology, Noida held from 18/12/2020 to 19/12/2020.

VIII. Honors & Awards

- Received “**Best Paper Award**” titled on “Automatic Fracture Detection in Bone Images” at Bannari Amman Institute of Technology on 19th September 2019.
- Received “**Best Paper Award**” titled on “Cardiac image enhancement and segmentation through CNN” at PSNA College of Engineering and Technology on 15th March 2019.
- Received “**Best Faculty Award**” during the Academic Year (2017-2018).
- Received “**Academic Topper Award**” in semester Exams during UG and PG.
- Received “**Best Outgoing Student Award**” during the Academic Year (2011-2012).

IX. Reviewer/Editorial Board Member

- Acted as Reviewer for IET Image Processing from September 2020 to till date.
- Acted as Reviewer for Computers in Biology and Medicine from October 2020 to till date.
- Acted as Reviewer for Sensor Review Journal from March 2021 to till date.

X. MOOC Courses Certification

- SWAYAM-NITTT- AICTE Module course “**Orientation towards Technical Education & Curriculum Aspects**” from September 2020 to November 2020.
- A complete guide on Tensor flow 2.0 using keras API on 21st April 2020 by udemy.
- Covid-19 Contact Tracing on 13th June 2020 by Coursera.
- Introduction to Google Docs on 08th June 2020 by Coursera.
- LaTeX for Students, Engineers, and Scientists from 24th September 2019 to 11th November 2019 by **IIT Bombay**.
- Introduction to Internet of Things from July-September 2019 by **IIT Kharagpur**.
- Elements of Learner-centric MOOC from 3rd May 2018 to 23rd May 2018 by **IIT Bombay**.
- Essentials, Decision Making Modules in the UNESCO Bangkok e-learning series on April 21st 2018 by ICT in education.
- Basic 3D Animation using Blender from 16th March 2018 to 11th July 2018 by **IIT Bombay**.
- Electronic waste Management Issues and Challenges from February-March 2018 by **IIT Kharagpur**.
- Digital Image Processing of Remote Sensing Data from July-August 2017 by **IIT Roorkee**.

PREAMBLE

The Department of Mechanical Engineering, Mangalam College of Engineering, Kottayam conducted the Short Term Course on “**3D-PRINTING**” for Final Year B.Tech Mechanical Engineering students.

Dr. Bharat Vinjamuri Professor, Global Academy of Technology delivered the lecture.

Dr. Bharat Vinjamuri is working as a Professor in the Department of Mechanical Engineering at the Global Academy of Technology.

He got his bachelor's degree in Mechanical Engineering from Bapuji Institute of Engineering & Technology, Davangere, and Masters in CAD/CAM from Sri Venkateswara University, Tirupati. He worked on the Tribological Performance of Sintered Aluminum – Beryl Metal Matrix composites under Dr. K. Venkateswarlu, Principal Scientist, National Aerospace Laboratories. He has 13 International Journal Publications of very high repute to his credit. One of his publications was awarded as the Best paper in NIT, Tiruchirapalli. He has authored a book on “Computer Integrated Manufacturing” Presently he is heading the Center of Excellence in Computer Integrated Manufacturing in Global Academy of Technology, and as the convener for Institute Innovation Center, an initiative of MHRD, New Delhi established in Global Academy of Technology. His research areas include Powder Metallurgy, Design of Experiments, Artificial Neural Networks, Additive Manufacturing, and Finite Element Analysis. He worked in various administrative positions at the university level. He was the resource person for the Board of Studies, Visveswaraya Technological University, Karnataka, and rendered his services as a member in Board of Examiner.

Mr. Sreenath P Polackal, CEO Emi Products also delivered the Lecture.

Mr. Sreenath P did his Bachelor of Technology in Mechanical Engineering from Amal jyothi college of Engineering.

He has been Selected for Young top 10 entrepreneur award for garments machine manufacturing , KASSIA 2016

The course content delivered in the Course is as follows:

3D Printing (Additive Manufacturing) Introduction & Classification Advantages & Applications Additive V/s Conventional Manufacturing process **CAD for Additive Manufacturing** CAD Data formats, Data translation, Data loss, STL format. **Additive Manufacturing Techniques – FDM** Introduction to Fusion Deposition Modeling Process, Process parameter, Process Selection for various applications.

Materials Polymers, Metals, Non-Metals, Ceramics Various forms of raw material and their desired properties **Additive Manufacturing Equipment** Process Equipment- Design and process parameter **Hands-on Session** 1. 3D Modelling of a single component. 2. Exercise on CAD Data Exchange. 3. Generation of .stl files. 4. Printing of product on an available AM machine.

Also the attendance of the students and faculties were taken. The details of the participants are as follows:

27.	EBIN V EDISON
28.	ELDHO BABYCHAN
29.	JAN K JOY
30.	JERIL JUSTIN

After completion of this course, the students learned to:

- Develop CAD models for 3D printing.
- Import and Export CAD data and generate .stl file.
- Select a specific material for the given application.
- Produce a product using Fusion Deposition Modeling (FDM).

The objective of the Course was achieved. The overall session discussion benefitted the students.

Asst. Professor, Mechanical Department

Introduction

About Department

The Mechanical Engineering department started in the year 2004, offers both undergraduate (B. Tech.) and postgraduate (M. Tech.) programmes. The annual intake of the B. Tech. programme is 90 students and that of the M. Tech. is 18. The department provides its students an environment that stimulates their intellectual growth and personality development. Infrastructure facilities are excellent with well-equipped labs, classrooms and libraries. Training programs conducted for the B. Tech. students throughout the course of their study by the Placement and Training Cell of our college and prepares them for a smooth transition from academia to the industry. Our students have secured very good results in the University examinations and they regularly participate in inter collegiate technical and cultural events..

VISION

To be a center of excellence in Mechanical Engineering by creating innovative and socially responsible technocrats to meet the global challenges.

MISSION

1. To provide qualitative technical knowledge in the domain of Mechanical Engineering to compete in the global scenario.
2. To nurture socially committed mechanical engineers through value based education.
3. To enhance the research ability of knowledge seekers for the changing needs of society.

PROGRAM EDUCATIONAL OBJECTIVES

DOMAIN KNOWLEDGE: Graduates will be able to solve the contemporary issues and challenges in mechanical engineering by applying their strong base in Mathematics, Science and Engineering.

LIFELONG LEARNING: Graduates shall have a passion to engage in lifelong learning process through self study, continuing education and professional studies in engineering.

CREATIVE SKILLSET: Graduates will become an effective innovator, to address social, technical and business challenges by enhancing their technical competencies,

communication skill and team spirit.

PROGRAM SPECIFIC OBJECTIVES

PSO 1: Able to identify, formulate design and analyze the contemporary challenges and engineering problems in the realm of Design, Industrial and Thermal sciences, utilizing latest technology.

PSO 2:Able to provide solutions by incorporating innovative ideas on product design and development to conquer the challenges in core mechanical sectors, business and other related fields.

Dear Sir,
As we discussed over the phone, Can you fix a convenient date for the webinar for the final year students of Mangalam College of Engineering. The topic must be related to Refrigeration and Air conditioning. As the syllabus, lacks topics detailing the modern refrigerants and natural refrigerants, it would be grateful if the topic is selected from the same.
Waiting for your reply
Thanking You

Dear Sir,

I will be happy to deliver a lecture on natural refrigerants. This can be scheduled on 31/12/2021 at 3:00 pm (online). Please create the link from your side and share it with me.

Thank you once again for inviting me.

PREAMBLE

The Department of Mechanical Engineering, Mangalam College of Engineering, Kottayam conducted the webinar on “**OPPORTUNITIES AFTER ENGINEERING THROUGH GATE &ESE**” for all B.Tech Mechanical Engineering students.

Mr. S Manimohan Trinath, Sr.Faculty ACE Engineering Academy ,Hyderabad delivered the lecture.

Mr. S Manimohan Trinath, is currently working as a GATE/ ESE Faculty in ACE Engineering Academy, Hyderabad. He has 10 years’ Experience in Teaching. He also worked as Assistant Professor for 2 years in Sproothy Engineering College, Hyderabad. His name is included in World Book of Records in 2020 for participating as one of the Keynote Speakers in Mass Event Organized by ESN Publications as one of the longest International Conferences following the duration of 150 Hours Continuously.

The course content delivered in the webinar is as follows:

1. Awareness of GATE and ESE.
2. Importance of GATE Exam for Central Govt. Jobs and Higher Studies.
3. Cutoff Marks for GATE Exam and ESE
4. Question Paper Pattern for GATE Exam and ESE

Also the attendance of the students and faculties were taken. The details of the participants are as follows:

Introduction

About Department

The Mechanical Engineering department started in the year 2004, offers both undergraduate (B. Tech.) and postgraduate (M. Tech.) programmes. The annual intake of the B. Tech. programme is 90 students and that of the M. Tech. is 18. The department provides its students an environment that stimulates their intellectual growth and personality development. Infrastructure facilities are excellent with well-equipped labs, classrooms and libraries. Training programs conducted for the B. Tech. students throughout the course of their study by the Placement and Training Cell of our college and prepares them for a smooth transition from academia to the industry. Our students have secured very good results in the University examinations and they regularly participate in inter collegiate technical and cultural events..

The screenshot shows a Google Meet interface. The main slide is titled "Selection of Pumps..." and contains the following text:

The power output of pumps is mechanical power transferred to the liquid during its passage through the pump.

It can be calculated by:

$$P_{out} = \rho g Q H$$

where Q is the flow rate, m^3/s ; H is the pump head, m ; and ρ is the fluid density, kg/m^3 ; g is acceleration due to gravity, m/s^2 .
